Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs

Calcutta, the 5th July 1958

Special Notice

The following Group of Abridgments of Patent Specifications has been published and copies thereof are available for sale with the Manager of Publications, Civil Lines, Delhi at Re. 1 per copy.

Copies are also available for sale at the Counter of the Government of India Book Depot, 8, Hastings Street, Calcutta, on cash payment.

Group IV

(Containing Abridgments of Patent Specifications between Nos. 35,001 and 40,000). Chemical processes and non-metallic elements.

Application for Patents

The dates shown in crescent brackets are the dates claimed under Section 78A of the Act.

19th June 1958

34415. Bishnu Charan Banerjee. An improved method for producing citric acid by fermentation.
34416. Farbenfabriken Bayer Aktiengesellschaft. Process for the production of coupling phthalocyanine derivatives. (18th April 1958).
34417. Creed & Company Limited. Improvements in or relating to platen arrangements for teleprinters and the like. (1st November 1957).
34418. Creed & Company Limited. Improvements in or relating to tape winders. (6th December 1957).
34419. Standard Telephones and Cables Limited. Improvements in or relating to printed circuits. (16th August 1957). (Addition to No. 61752).

20th June 1958

64420. Director, Institute of Agriculture, Anand. Improvements in or relating to farming hoe.
34421. Monsanto Chemicals Limited. Improvements relating to the treatment of textiles. (26th June 1957). (Addition to No. 59617).
34422. Union Carbide Corporation. Polyethylene structures.
64423. Knorr-Bremse G.m.b.H. Vacuum brake device for rail vehicles.
34424. Nagynyomasu Kiserleti Intezet. Improvements in the process for the treatment of asphalt containing mineral oils and of other asphalt containing hydrocarbonaceous mixtures poor in hydrogen to produce light and middle oils, with simultaneous refining of the motor fuels obtained. (Addition to No. 53233).
64425. Motco Plastics. Motco plastic rotating calendar.

21st June 1958

64426. Ashis Mukherjee. Manufacture of caustic soda and sulphuric acid from sodium sulphate.
64427. Lonza Electric and Chemical Works Limited. Improvements in the process of the arrangement for extruding tubes of thermoplastic material.
64428. Lonza Electric and Chemical Works Limited. Means for use in continuously flattening tubes of plastic film. (Addition to No. 61280).
64429. Standard Telephones and Cables Limited. Improvements in code transmission methods.
64430. Warmex Limited and A. Goldstein. Improvements in and relating to fastening devices. (21st June 1957).

23rd June 1958

64431. V. K. D. Dighe. Process and composition for obtaining an ayurvedic proprietary medicine called "Anjeerasava".
64432. The Yale and Towne Manufacturing Company. Rider operated control for pedestrian truck.
64433. Unilever Limited. Improvements relating to the production of soap tablets. (22nd July 1957).
64434. United States Steel Corporation. Vacuum casting apparatus.
64435. Reynolds Metals Company. Pressure welding by interposition of brittle or friable substance.
64436. Olin Mathieson Chemical Corporation. Animal growth stimulation compositions.
64437. Imperial Chemical Industries Limited. Bonded fibre webs. (5th July 1957).
64438. Merck & Co., Inc. Substituted piperidines and methods for making same. (6th September 1957).
64439. Aktiebolaget Electrolux. Improvements in or relating to absorption refrigerating apparatus.
64440. Ciba Limited. New Benzimidazoles and process for their manufacture.
64441. Robert Bosch GMBH. Improvements in or relating to commutators.
64442. Robert Bosch GMBH. Improvements in or relating to commutators.
64443. Simmonds Aerocessories Limited. Improvements relating to cutting or abrading tools. (11th July 1957).
64444. C. W. Cheney and Son Limited and C. W. Cheney. Improvements relating to hasp fastenings for luggage and like boxes. [Addition to No. 59656.]
64445. A. J. Buchi. Improvements in or relating to casings for centripetal gas turbines.

24th June 1958

64446. B. P. Pande. An improved ploughshare. [Addition to No. 56108.]
64447. PECHINEY Compagnie de Produits Chimiques et Electrometallurgiques. New type of anodes for electrolytic cells.
64448. Imperial Chemical Industries Limited. Carpets. (5th July 1957).
64449. Gevaert Photo-Producten N.V. Sensitized photographic emulsions and new sensitizing dyes. (5th July 1957).
64450. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of substituted acid hydrazides.
64451. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of substituted acid hydrazides.
64452. Ciba Limited. Process for desulfurizing fibers of regenerated cellulose.
64453. Ciba Limited. Process for the manufacture of pyrazole-pyrimidines. [Addition to No. 56869.]
64454. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of substituted acid hydrazides.
64455. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of substituted acid hydrazides.
64456. Franz Muller Maschinenfabrik K.G. Improvements in or relating to textile winding machines.

25th June 1958

64457. Council of Scientific and Industrial Research. A process for the manufacture of malted milk powder.
64458. Council of Scientific and Industrial Research. A process for the manufacture of malted milk beverage flavoured with cocoa.
64459. The General Electric Company Limited. Improvements in or relating to processes for reducing the gas content of carbon. (16th July 1957).
64460. A. E. Saloranta and E. Puronto. Improvements in fuses for shells, especially for shell throwers.
64461. Babcock & Wilcox Limited. Improvements in or relating to tubulous heat exchangers and to a method of forming a tube wall. (28th June 1957).
64462. J. A. Mackenzie. Constructional element. (10th April 1958).
64463. Merck & Co., Inc. Natriuretic agents. (1st October 1956). [Divisional date 15th April 1957.]
64464. Metals Disintegrating Company, Inc. Method of making pigment and products thereof.
64465. Metropolitan-Vickers Electrical Company Limited. Improvements relating to electric welding circuit arrangements. (17th July 1957).
64466. Metropolitan-Vickers Electrical Company Limited. Improvements relating to electric welding arrangements. (17th July 1957).
64467. A.E.I.-John Thompson Nuclear Energy Company Limited. Improvements relating to pressure vessels. (26th June 1957).

Alteration of Date

59541. The claim to priority date 22nd February 1956 has been abandoned and the application dated as of 2nd February 1957, the date of filing in India.
59542. The claim to priority date 22nd February 1956 has been abandoned and the application dated as of 2nd February 1957, the date of filing in India.
59543. The claim to priority date 22nd February 1956 has been abandoned and the application dated as of 2nd February 1957, the date of filing in India.
59953. The claim to priority date 28th March 1956 has been abandoned and the application dated as of 20th March 1957, the date of filing in India.
60130. The claim to priority date 16th April 1956 has been abandoned and the application dated as of 8th April 1957, the date of filing in India.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patents Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933 of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Government of India Book Depot, 8, Hastings Street, Calcutta in due course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

58469. Rauma-Repola Oy. Improvements in and relating to slurry inlet means in a strainer apparatus. [Addition to No. 54623.] Accepted on 20th June 1958.

Characterized by a distributing duct disposed above the strainer surface and forming a continuous annular inlet to feed the slurry.

58470. Rauma-Repola Oy. Improvements in and relating to slurry inlet means in a strainer apparatus. [Addition to No. 54623.] Accepted on 20th June 1958.

Wherein the distributing duct extends below the top level of the strainer surface and has a bottom discharge for heavy particles.

58645. American Cyanamid Company. Production of new steroids of the Δ^1 , 4-pregnadiene series. Accepted on 25th June 1958.

Δ^4 -pregnene is subjected to the fermentative action of organisms to produce 16 oxygenated steroid.

59037. Montecatini Societa Generale Per L'Industria Mineraria E. Chimica. Continuous and quick process for scouring, desizing and bleaching cotton with chemical oxidants and vaporization. Accepted on 25th June 1958.

Cotton is impregnated with a solution having desizing purging and oxidant solution.

59186. The General Electric Company Limited. Improvements in or relating to metal vapour electric arc converters. (30th December 1955). Accepted on 20th June 1958.

Main anode disposed in close proximity to the cathode so that in operation said anode is situated in the dark space of the discharge.

59208. The General Electric Company Limited. Improvements in or relating to dynamo electric machines. (2nd January 1956). Accepted on 25th June 1958.

Conductors of the coils divided into a plurality of superposed strips with in the slots and the strips are divided into at least two groups.

59209. The General Electric Company Limited. Improvements in or relating to electric discharge lamps. (19th January 1956). Accepted on 25th June 1958.

Lamp with elongated tubular discharge envelope sandwiched between two plates of transparent heat insulating material.

59225. Howa Kogyo Kabushiki Kaisha (known as Howa Machinery Limited). A drawing frame for cotton slivers. Accepted on 24th June 1958.

Bobbin driving mechanism may be traversed up and down so as to wind the roving around the bobbin and speed of bobbin may be lowered mechanically.

59226. Heinrich Koppers Gesellschaft mit meschräckter Haftung. Process for the pressure refining of crude benzene. Accepted on 24th June 1958.

Initially heating hydrogen containing circulating gas and benzene to less than 200°C and passing through catalysts at above 320°C and then contacting with fresh gas.

59230. Waagner-Biro Aktiengesellschaft. Stripper crane. Accepted on 20th June 1958.
Lifting gear and with it the stripping gear are made rotatable to strip off by turning ingot molds fused to their support.
59311. Ciba Limited. New substituted cycloalkanones and process for their manufacture. Accepted on 20th June 1958.
A 2-cycloalkylidene cycloalkanone is reacted with a reactive ester of an alkanol containing an amino group and if desired the double bond present in the product is hydrogenated.
59501. The Dow Chemical Company. Method of distilling vinyltoluene. Accepted on 19th June 1958.
Continuously introducing vinyl aromatic feed stock into a fractionation zone and distilled in the presence of an inhibiting agent.
59522. Ruhrchemie Aktiengesellschaft and Lurgi Gesellschaft fur Warmetechnik m.b.H. Process for producing iron catalysts for the hydrogenation of carbon monoxide using pulverulent iron oxides. Accepted on 24th June 1958.
Pulverulent iron oxide is molded in moist state dried and sintered.
59541. Aktiebolaget Bofors. Method of producing hydrogenated N-alkyl-alkyl-piperidine monocarboxylic acid amides and N-alkyl-alkyl-pyrrolidine monocarboxylic acid amides. Accepted on 19th June 1958.
Aryl magnesium halide is reacted with a pyrrolidine/piperidine monocarboxylic acid ester and the product is hydrolysed with an acid.
59542. Aktiebolaget Bofors. Method of producing hydrogenated N-alkyl-alkyl-piperidine-monocarboxylic acid amides and N-alkyl-alkyl-pyrrolidine-monocarboxylic acid amides. Accepted on 19th June 1958. aab4
An N-alkyl piperidine or pyrrolidine monocarboxylic acid, the anhydride, ester or halide of such an acid is coupled with an aromatic amine or a corresponding isocyanate and, if desired, the amide nitrogen atom is alkylated.
59543. Aktiebolaget Bofors. Method of producing hydrogenated N-alkyl-alkyl-piperidine- α -monocarboxylic acid amides and N-alkyl-alkyl-pyrrolidine- α -monocarboxylic acid amides. Accepted on 19th June 1958.
A 2-chloro-6-amino-capronic acid hydrochloride or a 2-chloro-5-amino-valeric acid hydrochloride is converted into an acid chloride, which is reacted with an amine to produce an arylamide from which HCl is separated resulting in ring closure and alkylation of ring nitrogen.
59602. Sindri Fertilizers and Chemicals (Private) Limited. A method to lower the vapour pressure of nitrogen solutions containing ammonia as one of the constituents. Accepted on 24th June 1958.
Adding carbondioxide to a fertilizer containing water, ammonia, ammonium nitrate and/or urea.
59603. Sindri Fertilizers and Chemicals (Private) Limited. A new fertiliser mixture from gypsum (or anhydrite), ammonia, carbon dioxide, ammonium nitrate and water. Accepted on 24th June 1958.
Adding ammonia gas and carbon dioxide to aqueous solution of ammonium nitrate and then adding calcium sulphate of commercial quality.
59637. Rohm & Haas Company. Aquous coating compositions and method of coating therewith. Accepted on 25th June 1958.
The coating comprises of a polymer of maleic anhydride and diisobutylene, and a water-insoluble linear addition polymer.
59638. Rohm & Haas Company. Aquous coating compositions and coated substrates. Accepted on 25th June 1958.
The composition comprises an ammonium salt of copolymer of maleamic acid and diisobutylene and a linear addition polymer.
59780. D. Napier & Son Limited. Apparatus for applying coatings to curved surfaces. (8th March 1956). Accepted on 20th June 1958.
Comprising two curved contour plates arranged in parallel planes, each blade corresponding to the profile of the curved surface, and means for traversing the spray gun along the beam.
59853. Council of Scientific and Industrial Research. Improvements in or relating to the preparation of costus root oil and the isolation of lactonic constituents therefrom. Accepted on 21st June 1958.
Extracting powdered costus roots with petroleum ether.
59935. D. Napier & Son Limited. Turbine blade shroud rings. (28th March 1956). Accepted on 25th June 1958.
Shroud ring in the form of a series of separate arcuate circumferentially extending section each connected to the casing by means of a thermal adjusting device.
59953. Blackstone and Company Limited. Improvements in crankshafts for multi-cylinder engines. Accepted on 19th June 1958.
Crankshaft formed by welding together separately formed crank pins with associated crank webs and substantially one half of the main journal.
60130. Imber Research Limited. Improvements in or relating to liquid fuel burners. Accepted on 25th June 1958.
A deflectors deflects a portion of the air in the direction of the vaporizing trough.
60219. United Plastics Industries, Inc. Method and apparatus for bonding fibres together. Accepted on 19th June 1958.
Impelling powdered thermoplastic resin particles into an advancing layer of fibres so as to impregnate said layer with resin and then heating, compressing and cooling.
60315. Monsanto Chemicals Limited. Maleic anhydride recovery. (30th April 1956). Accepted on 19th June 1958.
Injecting 35–75 per cent by weight of maleic acid solution into convertor gases and cooling vapours to condense maleic anhydride only.
60341. Jardine Henderson, Limited. Pressed fibre sheets and boards. Accepted on 25th June 1958.
A felt mass of fibres of jute impregnated with adhesive or binding agent stated in the specification.
60378. Imperial Chemical Industries Limited. Polymerisation of ethylenically unsaturated compounds. (2nd May 1956). Accepted on 20th June 1958.
Wherein as catalyst there is used atleast one organic hyponitrite wherein the organic residue contains atleast one ether oxygen atom.
60420. Hoover Limited. Improvements relating to centrifugal clothes driers. (18th May 1956). Accepted on 23rd June 1958.
A spin basket arranged with its axis vertical within a surrounding stationary casing and supported on a shaft extending downward and a flexible diaphragm between bottom of casing and the shaft.
60437. Shanks & McEwan Limited and Colvilles Limited. Method of and materials for surfacing roads and the like. (27th June 1956). Accepted on 20th June 1958.
Bitumen or tar and basic open hearth and basic bessemer slag mixture is applied to the road under pressure and allow the surface to weather.
60487. Bundy Tubing Company. Improvements in or relating to tube structures for the transference of heat. Accepted on 20th June 1958.
A fin consisting of a strip of metal of flat form is interposed between the facing edges of the tube body formed from a strip of metal.

60657. Corning Glass Works. Production of crystal and semi-crystal ceramics. Accepted on 21st June 1958.
Melting glass batch containing at least 50 wt. per cent and crystallizable compounds with 2–20 wt. per cent TiO₂ as nucleating agent, cooling product to below maximum nucleation temperature and their reheating.
60997. Norton Portland Corporation. Improvements in soil conditioning apparatus. Accepted on 20th June 1958.
Comprising a vehicle having a chamber with a bottom opening and a number of soil breaking members passing in and out of said chamber through said opening.
61085. S. Manohar. Cultivator implement for agricultural purposes. Accepted on 23rd June 1958.
Two end longitudinal bars connected to each other by spacing members consisting of two parallel bars; agricultural implement mounted on said spacing members and a hitch equipment of four braces connected at their lower ends to the frame and joined on the top.
61708. The Goodyear Tire & Rubber Company. Improvements in treatment of polyurethane foam. Accepted on 20th June 1958.
Curing polyurethane cellular composition in the presence of an activator.
62210. Formea Chemical Corporation. Amine-aldehyde molding powder and method of making same. Accepted on 21st June 1958.
Heating, mixing formaldehyde, urea or melamine or thiourea with fibrous cellulosic filler in closed vessel to condensation temperature and quickly cooling reaction mixture, when condensation is complete, in open vessel.
62252. Caterpillar Tractor Co. Precombustion chamber for compression ignition engines. Accepted on 25th June 1958.
Tubular member extending into precombustion chamber in the direction of fuel injection valve opening into said chamber in a range of from 30–80 per cent of the distance to the valve.
62460. British Timken Limited. Means for rectifying distortion and expansion of the race members of roller bearings. (28th February 1957). Accepted on 20th June 1958.
Lap carrier ring carrying three equally spaced lapping tools havinglapping surfaces directed radially inwards and engage full width of outer periphery of race member.
62776. Glaxo Laboratories Limited. Improvements in or relating to the preparation of triiodothyronine. (15th January 1957). Accepted on 21st June 1958.
By forming a salt or salt like complex between triiodothyronine, ammonia or an organic base and alkali metal ions and then separating it.
62813. James North & Sons Limited. Improvements in or relating to the production of articles of protective clothing. Accepted on 20th June 1958.
A flowable coating material applied on a base fabric arranged on a desiredly shaped support, the wall of the said support at those part over which the coating material converts into coherent coating being of thin metal.
62851. Imperial Chemical Industries Limited. Polymer compositions. (8th February 1957). Accepted on 19th June 1958.
A composition consisting of polyethylene and crystallisable polypropylene.
62961. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of α -mercapto-amides. Accepted on 20th June 1958.
Treating reaction product of (alkyl)₂C(Cl)COOH and H₂S with R halogen where R is alkenyl or alkynyl, reacting acid halide of product with H₂N-R' where R' is hydrogen alkyl or alkenyl.
63194. Ciba Limited. Unsaturated ethers of aminotriazine formaldehyde condensation products and oxidative drying compositions containing such ethers and process for their manufacture. Accepted on 24th June 1958.
Reacting in presence of acid aminotriazine-formaldehyde condensation product with 2-butene-1-ol.
63307. J. M. Gillott. Improvements in or relating to handling machines for coke oven doors. (14th March 1957). Accepted on 23rd June 1958.
An extractor on the carriage to be aligned with door frame, a contact member on the extractor adapted to contact the oven, a valve operable by contact member.
63519. Unilever Limited. Improvements in or relating to methods of and means for the stacking of articles into layers. (27th March 1957). Accepted on 20th June 1958.
Vertical layers of articles are transferred to a horizontal stacking platform, in a horizontal direction, which is in the same plane as the tilting movement through a distance not less than the width of the layer.
63841. Wolf Electric Tools Limited. Improvements in electric motors. (25th April 1957). Accepted on 20th June 1958.
A rotor for an electric motors comprising a laminated carrying windings and secured to a shaft.
63845. American Steel Foundries. A railway car truck. Accepted on 23rd June 1958.
Having a side frame provided with spaced columns which present opposed friction surface and which receives therebetween a spring supported bolster.

Printed Specifications Published

A limited number of printed copies of the undernoted specifications are available for sale from Officer-in-Charge, Government of India, Central Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—

5486. 54919. 54940. 54960. 54983. 55428. 55559. 55634. 55714. 55715. 55914. 55947. 55973. 56026. 56137. 56138. 56207. 56208. 56251. 56253. 56255. 56992. 57120. 57136. 57203. 57229. 57575. 57585. 57676. 57782. 57936. 58146. 58200. 58227. 58467. 58715. 58717. 59119. 59218.

Patents Sealed

56723. 57005. 57013. 57091. 57710. 57924. 57941. 58005. 58068. 58083. 58139. 58174. 58248. 58296. 58361. 58378. 58462. 58523. 58634. 58777. 59058. 59061. 59196. 59244. 59250. 59252. 59331. 59455. 59588. 59844. 59975. 60002. 60041. 60090. 60290. 60298. 60360. 60365. 60552. 60788. 60905. 60951. 61002. 61006. 61019. 61223. 61320. 61346. 61409. 61447. 61459. 61494. 61596. 61660. 61735. 61781. 61855. 61959. 62404.

Amendment Proceedings

(1)

The amendment proposed by The Indian Oxygen and Acetylene Company Private Limited in respect of Patent Application No. 57188 as advertised in the Gazette of India, Part III, Section 2, dated the 22nd March 1958 has been allowed.

(2)

The amendment proposed by The Indian Oxygen and Acetylene Company Private Limited in respect of Patent Application No. 57473 as advertised in the Gazette of India, Part III, Section 2, dated the 22nd March 1958 has been allowed.

Registration of Assignments, Licences, Etc.

Assignments, licences or other transactions affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interests:—

48748—Handy Angle Limited.

50756—L. Stromeyer & Co. G. m. b. H.

54716—J. R. Geigy, S.A.

56130—Helena Rubinstein Distribution Corp.

56906—Johnson & Johnson.
